Margaret

I just wanted to let you know I will be calling you on Monday morning to talk to you about the recent correspondence sent by EPA to the Kovac family regarding the Tower Standard property in Wisconsin. I hope you can help me understand where we are at collectively. Please note in the attached document that the Kovacs refer to the EPA documents sent to them as "Threats." This is an unfortunate conclusion, but one we need to discuss.

I look forward to talking to you about this, and a positive path forward.

Thank you.
